Hello, we are Zac Efron and Vanessa Hudgens from "High School Musical" and we are going to travel to Peru in June! We are going to stay in Lima for one week. We are going to visit some friends there and we are going to have a conference at Sheraton Hotel; at night we are going to have a concert at Monumental Stadium on June 19th. We are going to visit the National Museum in San Borja and we are going to have lunch in Chosica. We are going to stay at "Los Delfines" Hotel in San Isidro; then we are going travel to Chiclayo on June 24th and we are going to visit the "Señor de Sipan" museum. Robots

When will we have robots? We already have many kinds of robots! Industries use a variety of robots and now robots are becoming more common in the home. The Husqvarna company makes a lawn mowing robot called the Auto Mower. The robot has sensors that detect where objects are in the yard and it maneuvers around them. The robot can cut the grass while you relax on the patio with a glass of lemonade! Also, Eureka now makes a robotic vacuum cleaner. Like the robot lawn mower, the vacuum cleaner automatically detects where the furniture is and vacuums around it. Cars are becoming robots now that many cars have GPS (Global Positioning Systems) on them. A car with a GPS system can give you directions on how to go somewhere, tell you where the closest gas station is, and, some day in the future, will drive itself. You will take a nap or read while the car drives itself to your destination. We even have robotic pets now. The Sony company makes a robotic dog named Aibo that can sit, stand, and walk like a regular dog but can also communicate and take pictures! Aibo understands certain commands, like a dog does, such as "Sit down", "Stand up", "Turn right", etc. If you ask Aibo a question such as "How old are you?", its eyes will flash the number of years old it is. Aibo is also a great guard dog. He can patrol the yard and take pictures with a built in camera of anything suspicious.
