A Modern and Green Friendship

Lucas and Elena are best friends who live in a big city. They share a great interest in technology and the environment. Every day, Lucas uses his state-of-the-art laptop to research renewable energy. Elena prefers riding her bike to school because she wants to reduce her carbon footprint.

They believe that protecting the Earth is a priority. In their free time, they enjoy volunteering at a local recycling center. They don't like wasting water or electricity. "True friendship means having common goals," Lucas says. They always support each other in their eco-friendly projects.

Questions:

1. What do Lucas and Elena share an interest in?

2. Why does Elena ride her bike to school?

3. Where do they volunteer in their free time?

4. Write two sentences from the text that use the Simple Present:
