

# HUMANIDADES INGLES CLEI 4

1 Hi, there! I'm Michael and you can see me in the picture feeding the swans. My family and I love going to the park at weekends. We like having picnics and love being near the animals. My father hates cooking and my mother likes making sandwiches for all. My sister and I love playing around in the park and feeding the animals. My mother doesn't like lying on a blanket so she always likes bringing tablecloth and loves watching us while we play. The park is a very relaxing place because we love listening to the birds singing and we like watching the little rabbits running around. We all like the park mainly because we love being outdoors and feeling free
