THE OLIMPIC GAMES

1

The Olympic Games were part of a religious festival. They were held every four years at Olympia. The four-year interval was called an Olympiad, and it was the system used in ancient Greek history to calculate time. The game was so important that even wars were stopped when they occurred. The first Olympic Games were held in 776 B.C. At first, only one race was run. Later, the discus and javelin throw, broad jumping and wrestling were added. Only men were permitted to take part in the Olympic Games. The Olympic Games were held for more than 1,000 years. They were abolished by the Byzantine Emperor Theodosius in 394 A.D.

The games were revived in 1896 to promote peace among nations. The first modern games were held in Athens, Greece. Pierre de Freddy, the baron of Coubertin, was the founder of the modern Olympic Movement. He formulated a plan to revive the games. In June 1894 delegates meeting in Paris voted to hold the Modern Olympic Games in Athens in 1896.

Even though the idea of the games is to promote world peace, they have often been affected by political tensions. During the 1936 Berlin Games, German Adolph Hitler used the Games as propaganda for Nazi ideology. At the 1968 Mexico City Games, African-American athletes protested against the discrimination of black in the United States. Moreover, international political tensions led to the Olympic Games' greatest tragedy, during the Munich Olympic Games on September 4th 1972, when a terrorist group held some athletes that were killed during an unsuccessful attempt of rescue.

reading comprehension

Did wars continue when the Olympic games occurred?

- ☐ No, the Olympic games promoted peace between countries.
- ☐ No they were part of the peace processes.
- ☐ Yes, the Olympic games continued during wars.
- ☐ No they were stopped when wars occurred.
